

MODEL M DRY TRIMMER

The Next Generation of Dry Trimming.

MACHINE SPECS

The GreenBroz Model M Dry Trimmer is designed to closely mimic the act of hand trimming your harvest while at the same time increasing the consistency and efficiency of your harvest process.

Designed to be gentle, quick, and quiet, the Model M trims 8-12 pounds per hour. The sealed motor combined with the removable HMI digital user interface makes this machine completely washdown ready, ensuring cleanliness compliance anywhere in the world, now, and for years to come.

Our patented blade design, featuring surgical grade stainless steel anywhere your flower touches the machine, allows for the gentle rolling of the flower maintaining the natural curves and integrity of your product, while protecting the potency throughout the harvest process.
